Libraries & Frameworks
Node.js, Express.js, MongoDB

Tools & Platforms
Git, Github, WordPress

EDUCATION

Mechatronics Technician
Technical School - Konin
2012 - 2016

IT and Econometrics
Poznań University of Economics
2016 - 2018

EXPERIENCE

WordPress Developer
2018-2019
As a freelancer, I was creating responsive websites using HTML, CSS, basic JavaScript, and WordPress for small businesses, including roller shutter manufacturers, garage and door companies, and also roofing material dealers.

Computer Store Employee
2019-2021
My main task was to diagnose and repair computers, provide various IT services such as installing operating systems, configuring BIOS, removing viruses and adware, formatting disks and assembling computers.

PROJECTS

Eskplendor - Vrtual map of places

Web app for creating places you've visited around the world and sharing travel photos. Create an account, log in, add places using the built-in locator, upload photos, browse your map, and comment on other places. View code **here.**
